[CM1] Advancements in Battery Technology: From Materials to Applications: [CM1] Advancements in Battery Technology: From Materials to Applications - Venus 1 (1:00 PM - 2:30 PM)

-Conveners: Juhan Lee

time	[id] title	presenter
1:00 PM	[M95] [Session Opening] Leap Towards Future: The Evolution of Battery Technologies through Cross-Disciplinary Collaborating: rechargeable energy storage	LEE, Juhan
1:10 PM	[M99] MXene and hybrid electrodes for high performance energy storage	PRESSER, Volker
1:50 PM	[M82] Understanding the influence of interlayer distance and particle size on lithium intercalation kinetics in MoS ₂	CHOI, Jaehoon
2:10 PM	[M02] Solid-State Polymer Electrolytes for Lithium-Metal Batteries	JUNG, Unho
